

NAGA SAI ADITYA MURTHY

Analytics Enthusiast | Data Science | Problem-Solving

+917382781935 24eg110a09@anurag.edu.in Adityamurthy775 LinkedIn Website Hyderabad, India

PROFESSIONAL SUMMARY

Computer Science (Data Science) student with hands-on experience in **full-stack development**, **machine learning**, and **data analytics**. Skilled in **Python**, **JavaScript**, **React.js**, **Node.js**, **MongoDB**, **SQL**, and **Scikit-learn**. Developed web applications, **RESTful APIs**, and predictive analytics projects utilizing modern technologies. Possess a strong understanding of backend systems, database management, feature engineering, and data-driven problem solving. Passionate about creating scalable, intelligent solutions for real-world applications.

WORK EXPERIENCES

Data Analysis Intern | Internship
Eduskills/Googel

Apr 2026 - Jun 2026
Remote • Virtual

- Analyzed** over **10,000 data records** using **Python**, **Pandas**, and **SQL** to uncover trends and actionable insights.
 - Performed** exploratory data analysis (EDA) on more than **5 real-world datasets**, enhancing data quality through effective cleaning and preprocessing.
 - Developed** over **3 interactive dashboards** in **Looker Studio**, facilitating the visualization of more than **15 key performance metrics**.
 - Utilized Google Cloud Platform (GCP)** services for cloud-based data analytics and reporting.
 - Presented** analytical findings that decreased manual reporting efforts by **40%** through automated dashboards.
- Technologies / Skills Used** : DataScience, DataAnalyst, LookerStudio, SQL, Data visualization

Data Analysis Intern | Internship
Excelerate

Sep 2025 - Oct 2025
Remote

- Analyzed** datasets with over **10,000 records** using statistical techniques, enhancing reporting accuracy by **30%**.
 - Reduced** data inconsistencies and noise by **40%** through thorough data cleaning and validation processes.
 - Developed** interactive dashboards in Excel, increasing stakeholder data interpretation efficiency by **35%**.
 - Automated** reporting workflows, leading to a **25%** reduction in manual analysis time.
 - Generated** analytical insights that facilitated data-driven decision-making and enhanced operational visibility.
- Technologies / Skills Used** : Data Science, Data Analysis, MS Excel

PROJECTS

Trello Clone | Adityamurthy775 Vite

May 2026 - May 2026

- Full Stack Developer
- Developed** a full-stack **task and project management platform** inspired by Trello using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
 - Implemented** drag-and-drop task organization and real-time updates, enhancing workflow efficiency by **45%**.
 - Created** secure authentication and **CRUD** operations, enabling multiple workspace collaborations and effective task management.
 - Optimized** frontend rendering and backend operations, achieving a **40%** reduction in task loading time and improving application responsiveness.
 - Designed** responsive UI components using **Tailwind CSS**, enhancing user experience across both desktop and mobile devices.
- Technologies / Tools Used** : Express, Node.js, MongoDB, Tailwind CSS, React

Stock Market Prediction | Adityamurthy775

- Machine Learning Engineer
- Developed** a machine learning-based stock prediction system using **Random Forest** and **XGBoost** algorithms.
 - Collected** and processed historical stock market datasets via APIs and preprocessing techniques.
 - Applied** feature engineering and technical indicators, enhancing prediction accuracy by **75%** on test datasets.
 - Compared** multiple regression models, achieving **12%** better performance than baseline models.
 - Visualized** prediction trends and stock movements using **Matplotlib** and **Pandas**.
- Technologies / Tools Used** : Data Science, Machine Learning, MongoDB

Smart Placement Tracker | Adityamurthy775 Vercel

- Full Stack Developer
- Developed a web-based placement management system supporting **100+ students** to track job applications and interview progress.
 - Built an interactive dashboard that visualized **500+ application records** with real-time placement analytics.
 - Implemented **role-based access** for students and administrators, improving data security and management efficiency.
 - Designed a responsive interface, reducing the time required to update application status by **40%**.
 - Optimized the application tracking workflow, enabling users to monitor placement progress **30% faster** through centralized dashboards.
- Technologies / Tools Used** : Data Science, Machine Learning, MongoDB

SKILLS

Databases :	MySQL, MongoDB
Frameworks & Libraries :	Machine Learning, Flask, Express, numpy, pandas, seaborn, matplotlib, sklearn, React, Node.js, Tailwind CSS
Programming Languages :	Python, Java, JavaScript, C, SQL
Soft Skills :	Communication, Problem Solving, Time Management, Critical Thinking, Decision Making
Tools & Platforms :	Data Analysis, Statistical Modeling, Database management, Data modeling, Git, GitHub

EDUCATIONS

Anurag University,Hyderabad | Hyderabad, India

Aug 2024 - Aug 2028
CGPA : 9.22

B.Tech Computer Science(Data Science)

Pursuing Bachelor of Technology in Computer Science with a specialization in **Data Science**.

- Relevant Coursework**: Data Structures, DBMS, Machine Learning, Statistics, Operating Systems, Web Development.
- Developed** multiple full-stack and machine learning projects using **modern technologies** including React.js, Node.js, MongoDB, and Scikit-learn.
- Engaged** in AI-powered applications, backend development, and data-driven problem solving.

CERTIFICATIONS

IBM ARTIFICIAL INTELLIGENCE FUNDAMENTALS

IBM Certification

Automate Data Capture at Scale with Document AI

Google Skills Certification

Prepare Data for ML APIs on Google Cloud

Google Skills Certification

Introduction to Modern AI

CISCO Certification

CS50 Python

Harvad University
